- **Data & Analytics:** Microsoft Excel, Power BI, SQL, Python, Tableau
- **Business & Finance:** Financial Analysis, Business Research
- **Productivity:** Microsoft PowerPoint, AI Productivity Tools

PORTFOLIO PROJECTS

Retail Business Performance & Profitability Analysis | Excel (In Progress)

- Analyzing synthetic retail order data to compare sales, costs, profit, product categories, regions, and customer segments; planned outputs include PivotTables and evidence-based business recommendations.

Financial Planning & Budget Variance Analysis | Excel (Planned)

- Planned analysis comparing budgeted and actual expenses, calculating variances, tracking monthly trends, and identifying potential cost-saving actions.

Customer Retention Analysis | SQL & Power BI (Planned)

- Planned customer-segmentation analysis to explore repeat-purchase patterns and retention trends using SQL queries and a Power BI dashboard.

CERTIFICATIONS

- AI Fundamentals: Foundations for Understanding AI, IBM SkillsBuild (May 2026)
- Fundamentals of Sustainability and Technology, IBM SkillsBuild (December 2025)
- National Financial Literacy Quiz 2026, College Round, Certificate of Participation, National Institute of Securities Markets (NISM)
